

ELLERKER NEIGHBOURHOOD WATCH

APRIL 2017

Incidents

Apart from several cases of fly-tipping and several suspicious vehicles in our area, little has been reported in the past six months, though the Police have reported that locally there has been a rash of cycle thefts. We would ask residents to ensure that they take numbers and other details of vehicles and drivers acting suspiciously and make the first contact to the Police via 101.

Help Available...

The defibrillator is now in position at the front of the Village Hall. Full instructions for use are available on-site.

...and Ellerker Emergency Plan

Using the template supplied by the ERYC and in line with national policy, members of our Parish Council are aligning themselves with members of our own NHW Co-ordinators by Zone so that in the event of an emergency they could work in teams within the Community. Between the two or three officers in each Zone, they hope to have knowledge of any residents' vulnerabilities, eg under 5s, elderly, incapacitated or disabled, who may need additional support. Further details should be available shortly, particularly via the Village Website.
